

Case Study CS3

Switchgear Services

BurtonwoodTM
Generator & Switchgear Services

Length of relationship:

Ongoing

Location(s):

American Express European Headquarters in Brighton

Successes:

To ensure that American Express were never left without standby power, our team completed the specially phased upgrading of generator control panels over a 5 week period – delivering the assurance and guarantees required by the customer.

Any failure in power during that time would have severely disrupted Amex's functionality, potentially affecting millions of customers across Europe – hence the need for meticulous planning to deliver the workload without defect.

Work undertaken:

The Burtonwood Group completed control panel upgrade work to 5 x 800KV generators, including specialist enhancement work to enable them to synchronise together in less than 1 minute

The Power of Experience

We can offer you even more ...

We may not know what power generation services you would like but we do know we have already developed a solution for your application.

We would be pleased to send you more details on any of the products listed below. Simply photocopy this page with your information requests marked and send to the fax number at the foot of this page nearest your location.
